@RoommateFinder

*Find a Roommate, Find a Friend*

### Benefits

- Streamline and make transparent the roommate finding process
- Find a compatible roommate that will enrich your college experience and not detract from it
- Improves campus culture!

# Have you had a bad roommate?

Random pairing is the most common method colleges and universities implement. This is not effective for matching students with a roommate they will find compatible because there is no consideration for the daily life and personality of the students. Roommate finder is the best solution; allowing you to choose someone that you connect with.

## Features and Functions

- Customize your profile with your lifestyle preferences
- Efficiently find a roommate by swiping through profiles
- Filter your search to find specific profile settings
- Utilize algorithms to find the most compatible roommate based on personality and lifestyle similarities

## Pricing
